

MS113 Database Systems

Project Schema

Ying Sheng(5120309063) Zhen Wei(5120379085)

`user(u_id, name, login_name, password, address, phone_num)`

`user_trust(u_id1, u_id2, is_trust)`

`book(isbn, title, year_of_publication, copy_num, price, format, subject, keywords, publisher_id)`

`writes(isbn, author_id)`

`orders(time, u_id, isbn, copy_num)`

`opinion(time, short_text, score, u_id, isbn)`

`feedback(score, u_id, isbn, u_id2)`

`author(author_id, name)`

`publisher(publisher_id, name)`

In complementation, in order to eliminate the duplication, the last two tables `author` and `publisher` are not created actually.
